

Construction Project Documentation

Construction Project Documentation - In addition to being a contract requirement in most large construction projects today, thorough and organized documentation throughout a project provides the only contemporaneous “memory” of what actually happened on the project. Documentation is the foundation on which all proposals, disputes, or claims are built. TYPICAL CONSTRUCTION PROJECT DOCUMENTATION . The following records are the standard construction project documents that should be available to an attorney who is conducting discovery in a construction case. These documents usually originate at the home office or at the project office. Contracts between the Owner and Contractor Constructing a solid contract represents one of the first steps toward the success of your project no matter what you're building. This list explains the documents that are typically a part of every construction contract.. There are also numerous other exhibits or forms that you can use in combination with these documents. Best Practices: Project Documentation and Construction Management, including sample form documents, sample projects gone wild, and photographs Slideshare uses cookies to improve functionality and performance, and to provide you with relevant advertising.
